.. Gossip For Home People..

United States bonds are the most valuthe world. They are worth more than it all is that Leedy, is under the impres-gold, dollar for dollar. Once fairly issued sion that he will carry Sedgwick county swelled. and in the bands of capitalists they go to a premium. The rate of interest or time they have to run cuts little figure in the greed with which they are gobbled. So there is ever the pressure upon the government, and the disposition upon the part of the treasury department to dispose of them to banks, money syndicates has become an ambition with her to dis- train is bound. In the big city depots all martial experience. and the like, in large sums, compelling moderate investors to buy second-hand, and at an advance. There is ever the Isn't this rain fine? What an immense ery for a popular loan from the people, but the cry goes unneeded. When Sherman was secretary of the treasury, and it become necessary to float some govern-ment bonds, he stood out for a low per cent interest and a popular loan. The banks and money mongers predicted that he would fall. They said that the interest was too low, and that the people wouldn't put their money into them. But Sherman | Leedy had appointed Will an officer, Funed, he asked the costmaster general to been pigmies beside film. send a circular to all the presidential post masters in the country, asking each how much, in his opinion, could be sell of the bonds in small denominations, of fifty and one hundred dollars, if we remember. The then postmaster at Wichita, after the kodak albums will have them. Inquiring around, replied that Wichita might take from \$15,900 to \$20,000. The former amount was sent, and the day that they could be secured announced. In an Matanzas bombardment news is mild comlast bond was gone, no single individual Chicago papers are roaring. In Chicago being permitted to buy more than a \$100 the Times-Herald accorded all the other bond, if we remember. Fifty thousand newspapers, Friday morning it took aling bonds, and that the people wouldn't | words, touch them. They bought them all up,

Leichardt's questions nor speak to her to explain. For the first time in her life to explain. For the first time in her life she had experienced real and ominous uncasiness. At night, being left alone, she

calamity and woe. While writing, she felt a presence bending over her shoulder, and burriedly turning her face upward beheld a feminine arm reaching down over her shoulder and the long index finger pointing directly in front of her. Only an arm from the shoulder down was visible, and on the forefinger of the hand was a gold band ring mized as one she had the year before given a girl cousin, to whom she was deeply devoted. With a cry of abject fear, she fell forward, her head on her writing desk, in a dead faint. When she finally was of those who enlisted as privates and when the balloting began the man who own to relate, but drow out a worn letter then noted the last line of the unfinished aroused, she found the presence gone and sentence, and which she was always convinced she never touched, either the was an old echoolmate, intimately known scrawling line or the blot. This was about for years. She was in every way one of Il o'clock at night, and the next morning those painfully practical people, with little | the shocking news was received that at or no sentimentality, and no patience with precisely that hour the night before her issue or any theories not compatible with beloved cousin had died, the result of a reason and natural accountability. Wichita's Greatest Clothing Store, 'Phone 221. ZIMMERLY BLOCK.

The woodworker's life is hard at its best. Standing day after day alongside a workbench causes many of the delicate organs of digestion to get out of working order. Worry in the workshop six days in the week is very apt to carry over on Sunday also. Headache does not stop when the day's work is done, but spoils the pleasure of the leisure hours as well. A workman in the Burlington Venetian Blind Co.'s employ says: "Ripans Tabules first came to my notice when the engineer sent for me one day and asked me if I had ever used them. He recommended them so highly because they had cured him of dyspepsia and other troubles, that I began to use the Tabulca. I found them so good that I recommended them to others. I have had headache but once since I began to take them. Everything I eat acts well now and even a crust of bread tastes good."
